

ADDENDUM No. 2

(Original issue date September 4, 2024, modified September 5, 2024)

The following clarifications, amendments, deletions, additions, revision and/or modifications are made a part of the contract documents and change the original documents only in the manner and to the extent hereinafter stated and shall be incorporated in the contract documents.

The provisions of this addendum shall take precedence over the requirements of the original contract documents, and all BIDDERS ARE REQUESTED TO ACKNOWLEDGE SAID PROVISIONS IN THE SUBMISSION OF THEIR BID.

Addendum as follows:

1. This addendum incorporates a specification for:
"Coating and Painting for Water Storage Tanks"

The specification consists of 17 pages in total; and replaces the specification for coating and painting in the specification you now hold.

Although the paint supplier "TNEMEC" is a reference in the specification provided with the addendum, **it is not intended to exclude the use of other paint manufacturers**. Rather it is intended to provide a reference point and additional detail in a coating and painting specification for steel storage tanks. This specification is to be used and should replace the specification that originally appeared in our specification book, and the addendum No. 2 you originally received on September 4, 2024.

If you have any questions, please feel free to contact me at **409-728-6253** or by email: **wlarrain@acecivilengineers.com**

ACKNOWLEDGMENT:

The contractor must sign, date, and include this addendum with bid submission.

Signature of authorized representative and date.
